PROFESSIONAL EXPERIENCE

Full Stack Developer (Internship)

IPO Money   December 2023 - March 2024

I learned a lot from this internship about acquiring new skills on the job and communicating effectively with colleagues. It was a challenging three months, as everything was new and I had to implement tasks I had never done before. Despite the difficulties, I managed to keep everything together and learned many new technologies, including Next.js. Overall, these three months were a valuable and enriching experience.

Graphic Designer and Digital Marketer

Dr. Tech   October 2024 - October 2024

I'm having a fantastic experience working at Dr.tech, where I've been learning so much about Graphic Design and Digital Marketing. The company's support has been incredible, and I'm thrilled to be a part of such a dynamic and growth-oriented team. Excited to continue growing and contributing at Dr.tech!

PERSONAL PROJECTS
